North Carolina Bowhunters Association

-Becoming a Bowhunter in NC-

The North Carolina Bowhunters Association, in association with the NC Wildlife Resource Commission, offers a series of three courses to the public which will prepare the student with the knowledge and skills required to participate in, and continue, the long tradition of bowhunting in North Carolina. Upon completion of the Becoming a Bowhunter in NC series of classes and the Hunter Education Class offered by the NC Wildlife Resource Commission, the student will be able to bowhunt, harvest, and competently process game for the table.

I understand that archery is a sport. When participating in archery, there is always the potential for personal injury and loss resulting from the physical activity itself, or from poor or inaccurate shooting. I shall indemnify and hold harmless the NCBA, its officers and members, and any other person or organization working on the behalf of the NCBA and/or who participates in my archery and bowhunting instruction through the NCBA's "Becoming a Bowhunter in North Carolina" program.

Signed: _____ Date : _____

North Carolina Bowhunters Association

-Becoming a Bowhunter in NC-

In order to find the best mentor for you, it is important that the NCBA be able to assess your skill level, interests, and goals for your bowhunting. Our mentors come from all parts of NC and all backgrounds. We hunt with compound bows and more traditional equipment like longbows and recurves. Some of us hunt from tree stands while others hunt from ground blinds. It is important to make sure that your mentor knows your skill level and interest in order to assure the best working relationship, and the best learning outcome, for you.
