Instructions for measuring and entering Skull into the NCBA "All Time Record List" and the "Annual Awards Contest"

1. All measurements must be made with a flexible 1/4" steel tape to the nearest one-sixteenth of an inch.
2. Skull measurements of any animal may not be officially taken until the skull has dried for sixty days under normal, DRY, atmospheric conditions. Preferably, the skull should be boiled out, then the sixty day drying period begins. Skulls MAY BE cleaned and dried in a "bug box". In either case, the sixty day drying period doesn't begin until the skull is removed from the freezer, skinned and then boiled, or placed in the "bug box" under normal (not freezing), and DRY atmospheric conditions.
3. The skull must be CLEAN and DRY and all adhering hide, hair, and flexh must be removed before it will be scored. The skull must also be free of ALL insect infestation before it will be scored by an official NCBA measurer.
4. A photograph of the animal and the hunter together shall be submitted along with the scoresheet, when at all possible.
5. The greatest length (A) of the skull shall be measured between perpendiculars to the long axis of the skull WITHOUT the lower jaw and EXCLUDING malformations. Front teeth, if present, shall be included in the length (A) measurement.
6. The greatest width (B) of the skull shall be measured between perpendiculars at right angles to the long axis of the widest point of the skull. Note – Length and Width measurements are best taken with "outside" calipers.

NCBA Rules of Fair Chase

The term "Fair Chase" shall not include the killing of animals under the following circumstances:

1. Helpless in or because of deep snow, water, or ice.
2. Helpless in a trap.
3. While confined behind fences or on game farms, etc.
4. In defiance of game laws or out of season.
5. By "jack-lighting" or shining at night.
6. From any power vehicle or power boat.
7. By the use of any aircraft for herding, driving, landing alongside any animal or herd, or using an aircraft, radios or walki-talkies to communicate with or direct a hunter on the ground to the game.
8. The use of any functional electronic equipment attached to the bow or arrow.
9. Compound bow with more than 65% actual let off are permitted, but must be declared. Crossbows or the use of any attachments which holds the bow at partial or full draw without the use of human muscle power are prohibited.
10. Any other method considered by the NCBA Record System as unsportsmanlike may disqualify a potential entry.

Affidavit : (to be filled out and signed by the hunter)

I, \_\_\_\_\_, certify that the trophy scored on this chart was taken in "Fair Chase" as defined above by the NCBA Records System.

Hunter's Signature : \_\_\_\_\_ Date: \_\_\_\_\_

.....

I certify that I have measured the above trophy on \_\_\_\_\_ at (address) \_\_\_\_\_  
City: \_\_\_\_\_ State: \_\_\_\_\_, and that these measurements and data are, to the best of my knowledge and belief, made in accordance with the instructions given.

Witness : \_\_\_\_\_ Official Measurer : \_\_\_\_\_
